### FROM ANTIGUA, GUATEMALA

Language school continues for us. It is difficult, but we see progress in our ability to communicate. We will continue into August or September and then move to a rental house in the Capital where we hope to extend much hospitality.

However, Dianne has been in Dallas on a planned trip for a doctor's appointment and to help in welcoming our second grandchild, Cameron Merritt, the second son of Neil and Brandy, our oldest son. It is such a blessing to witness God's miracle in creating life.

I took off one day from school so that John Lohrenz, two interns here for the summer, and I could travel our west to the town of Huehuetenango. We are planning the details for a group of friends to come from Dallas on September 11-18. Consider joining us on this trip; at [www.wdmerritt.com](http://www.wdmerritt.com) click on the "Come to Guatemala" link on the left.

We see God's presence and work all around us. The evidences show up in people not in programs or places. We also see Him in us as we are exposed by the difficulties of learning language and culture and in missing family and friends "back home." You are included in that circle of "los que extrañamos" (those we miss).

Thanks for praying and remembering us.

With much love and appreciation,  
Wendell & Dianne
